<sup>\*1</sup> Actual scanning speeds are affected by data transmission and software processing times. <sup>\*2</sup> Indicated speeds are from using JPEG compression. <sup>\*3</sup> Indicated speeds are from using TIFF CCITT Group 4 compression. <sup>\*4</sup> Selectable maximum density may vary depending on the length of the scanned document. <sup>\*5</sup> Some limitations may apply to the size of documents that can be scanned, depending on system environment, when scanning at high resolution (over 600 dpi). <sup>\*6</sup> Scans folded documents of up to 297 x 432 mm (11.7 x 17 in.) with carrier sheet scanning. <sup>\*7</sup> Capable of scanning in both portrait and landscape orientation. <sup>\*8</sup> Capable of scanning documents longer than A4 (210 x 297 mm / 8.3 x 11.7 in.) sizes. When using PaperStream IP (TWAIN/ISIS) to scan at 200 dpi, the maximum scanning length is 5,588 mm (220 in.). <sup>\*9</sup> Thicknesses of up to 128 to 209 g/m<sup>2</sup> (34 to 56 lb) can be scanned for A8 (52 x 74 mm / 2.1 x 2.9 in.) sizes. <sup>\*10</sup> Capable of scanning up to 3 cards at a time (Note: does not set more than one embossed card at a time). <sup>\*11</sup> Maximum capacity depends on paper weight and may vary. <sup>\*12</sup> Capable of setting additional documents while scanning. <sup>\*13</sup> When operating 8 hours a day. <sup>\*14</sup> Intelligent Sonic Paper Protection. <sup>\*15</sup> IPv6 is not supported. <sup>\*16</sup> Scanner automatically enters power saving mode when not used and powers off by default when not used for 4 hours. <sup>\*17</sup> Excludes the ADF paper chute and stacker. <sup>\*18</sup> Functions equivalent to those offered by PaperStream IP may not be available with the WIA Driver. <sup>\*19</sup> Software can be downloaded from the website designated in the Setup DVD-ROM. <sup>\*20</sup> Fujitsu Ltd. has determined that this product meets the ENERGY STAR<sup>®</sup> guidelines for energy efficiency.
