Support

Kodak Capture Pro Software

Simplify Scanning | Automate Indexing | Maximize Connectivity

Kodak Capture Pro Software is the complete capture software application that allows you to scan, process, utilize, and manage documents and important data from those documents. Get powerful, flexible and affordable batch capture with Kodak scanners–and scanners from other popular manufacturers – in desktop to high volume production environments.

- Capture Pro Software is suitable for a broad range of horizontal application in many industries and market segments. It is ideal for either centralized or distributed scanning applications.
- Quickly and efficiently convert forms and business documents to high-quality images
- Enhance productivity with advanced indexing capabilities incl. mark detection
- Capture critical data and deliver to databases and applications (including dozens of ECM systems and **SharePoint**)
- Supports **Kodak** Scanners and those from other manufacturers (over 200 scanners supported)
- Also available in the following editions:
  - Network Edition – Centrally manage remote scanning and indexing anywhere
  - Auto Import Edition - Auto import from apps, databases and storage systems
- Limited Edition - Out-of-the-box productivity with **Kodak** scanner

Kodak Info Activate Solution

Activate Information | Streamline Processes | Optimize **SharePoint**

Kodak Info Activate Solution is a distributed enterprise capture, management and workflow solution designed to streamline the onboarding of electronic and paper documents into transactions and business processes in a SharePoint environment. The use of Info Activate Solution adheres to defined governance policies so documents are correct metadata to efficiently find and retrieve content when needed.

- **Kodak** Info Activate is best suited for document-oriented, ad hoc, non-production capture environments. It is ideal for small, mid-size and enterprise organizations capturing documents in multiple, distributed locations to manage business processes in their **SharePoint** environment.
- Onboard paper and electronic documents into a business workflow with a single click – radically simple user interface designed for knowledge workers
- Built using **SharePoint** as a platform
- Browser based, easy to set up and use
- Govern the consistency and accuracy of critical business data

Smart Touch functionality

Ideal for ad hoc document capture and output to a file, email, printer or Microsoft SharePoint

- Bundled with select **Kodak** Scanners
- Output documents in a variety of file formats
- Easily configure locations, then scan with one touch

Kodak Info Insight Platform

Tame Content | Harvest Insight | Achieve Intelligence

The Kodak Info Insight Platform provides intelligent analysis and understanding of incoming documents and digital correspondence, regardless of format and structure. It learns from the behavior of expert users during information evaluation and processing with the goal to extract and enrich key information delivery to the appropriate business processes. The product and solutions suite helps organizations make better decisions faster and frees up valuable time to seek new business opportunities.

- **Kodak** Info Insight is well suited for a broad variety of businesses with a large number of end customers. Business applications like digital mailroom management, claims processing, customer on-boarding, response management, invoice reading, expense management etc.
- End-to-end solutions that drive business efficiency and improved customer engagement
- Save time, money and resources by automating information management processes
- Handle all input channels with a single platform and in a single process
- Improve quality and consistency of your customer interactions

Kodak Service & Support for Document Imaging Solutions addresses your system needs throughout the life of your investment, via installation, maintenance and valuable professional services, ensuring ongoing productivity as well as continued relevance of the solutions to your business processes for years to come.

Our services are available for Kodak-branded and other manufacturers' equipment alike providing a single source for your services needs.

Extending lifespan, reducing costs, and maximizing productive uptime are essential to your investment in technology.

Expanding the proficiency of your workforce and systems via training and application of cutting-edge technology is critical.

Kodak Alaris enables it all.

Kodak Service & Support on Kodak.com

Kodak Asset Management Software

- Know more and do more by remotely managing **Kodak** Scanners
- System administrators can manage and maintain select **Kodak** Scanners on their network through one simple thin-client dashboard solution
- **Kodak** Asset Management Software will optimize time, budgets, resources and efficiency. You'll know more about every scanner and be able to do more across your network, thanks to **Kodak** Asset Management Software
