

ABBYY® Lingvo™ Server: Sophisticated language translation – from Intranet to Cloud!

ABBYY Lingvo Server eliminates barriers to productivity, by enabling real-time translation for those whose tasks involve multiple languages.

It takes the power of the world's most sophisticated language translation software to new levels: Into the cloud, on your website, across your organization and into your service offerings. Deployable via your intranet or the Web, ABBYY Lingvo Server makes it easy and highly affordable to provide its benefits to everyone: Executives, staff and customers – no need to install clients or components on their PCs!

Fast to implement, ABBYY Lingvo Server's benefits include:

Reliable word and phrase translations from the industry's most comprehensive set of dictionaries, phrasebooks, corporate glossaries and reference materials.

Easy-to-use, easy to administer, ABBYY Lingvo Server makes reading and writing in a foreign language as simple as opening a Web browser. Plus its client/server architecture makes maintaining, updating and supporting the solution easy and inexpensive.

Quick and simple customization, that makes it possible to tailor ABBYY Lingvo Server's dictionaries and references to both your industry, and your organization's unique needs.

ABBYY Lingvo Server delivers a single, centrally managed, language translation solution for organizations and enterprises. Capable of serving a virtually limitless number of users as either a Web or Intranet solution, Lingvo Server makes reading and writing a foreign language as easy as opening a Web browser.

Key Features

Word lookup in any form

Users can look up inflected word forms and homonyms. Plus, if a compound word is not found in the dictionaries, Lingvo will parse it into its constituent elements and translate them.

Case sensitive

Word lookups are case-sensitive

Full-text search

Users can carry out searches in the full text of the entries, including usage examples, translations, and other entry sections. The results are displayed based on relevance and dictionary rankings.

Spelling suggestions

If users make typos, or can't remember exact spelling, Lingvo will automatically suggest spellings according to what's been entered.

Language learning tools

A grammar check, accurate audio pronunciations, phonetic transcriptions, usage examples and wildcard search helps users improve their language skills.

Proven reliability

Lingvo Server is successfully handling extremely heavy traffic on a 24x7 basis, and has been deployed on Web sites handling millions of queries a day.

System Requirements

ABBYY Lingvo Intranet Server

- Microsoft Windows Server 2003 (x86), Windows 7 (x86), Windows Server 2008 (x86), Windows Server 2008 R2
- 512 MB RAM
- 1 GB hard disk space

ABBYY Lingvo Web Server

- 1 GHz or faster CPU
- Microsoft Windows Server 2003 (x86), Windows 7 (x86), Windows Server 2008 (x86), Windows Server 2008 R2
- 512 MB RAM
- 1 GB hard disk space
- MSXML 4.0
- Microsoft IIS
- .NetFramework 3.5
- Microsoft MVC Framework 1.0

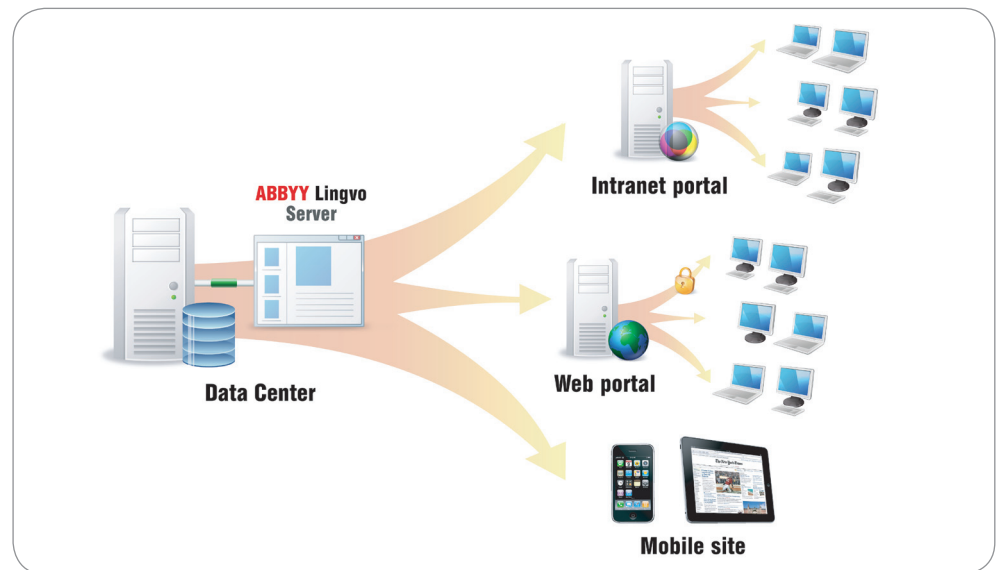

Which version of ABBYY Lingvo Server is right for you?

ABBYY Lingvo Intranet Server

An internally hosted, client/server, solution that is easily customized to your existing design standards and integrated into your Web site and corporate portals. Lingvo Intranet Server does not require installation on end-user's PCs, and is easily set up and maintained.

ABBYY Lingvo Web Server

Provides your users and customers a true cloud-based language translation solution with anytime, anywhere, access to its benefits. Fully scalable, requiring no client software, Lingvo Web Server works with Internet Explorer, Opera, Firefox, Chrome and Safari.

Your advantages with ABBYY Lingvo Server include:

- **Higher productivity from superior ease of use.** Everything from translating single words and phrases, to reading and writing letters and articles, is as easy as opening a Web browser.
- **Low Total Cost of Ownership.** Client/server architecture enables fast setup, easy scaling, and low administrative and maintenance costs. And remarkable ease-of-use, means minimal need for support.
- **The most comprehensive dictionaries and reference materials:**
 - 69 general and specialized dictionaries (economics, law, IT, construction, medicine, biology, etc.).
 - 8 language pairs
 - 1.5 million words
- **Highly customizable.** Any structured content (dictionaries, etc.) used in your business processes can be incorporated into the solution – which can also be integrated your other services and portals.
- **Accurate, reliable and scalable.** Seven hundred linguistic scientists and software engineers have created a solution providing the highest levels of accuracy and scalability. Whether serving hundreds of users in-house, or handling millions of daily queries at your Website, Lingvo Server delivers reliability that keeps users and customers working productively – and your company profitable.
