

Business Process Automation

EVOLVE.

Less Work, More Flow...

Streamline your workflow & Reap the business benefits.

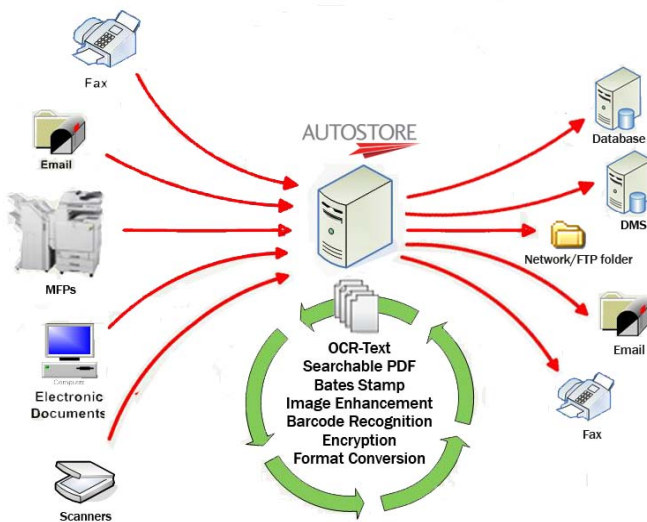

AUTOSTORE™ is a business automation application that transforms paper- and manual-based processes into easy and efficient electronic workflows.

Companies and organizations that use AUTOSTORE streamline their business processes, improve productivity, reduce operating costs and enforce compliance with laws and regulations.

AUTOSTORE enables you to classify documents, extract just the information you need, and send it wherever you want. All with a few easy clicks.

AUTOSTORE Simplifies Everyday Business Tasks.

AUTOSTORE automates cumbersome and error-prone business processes so companies and organizations can save time and money, boosting their bottom line.

Examples include:

Accounting - AUTOSTORE streamlines accounts receivable and accounts payable tasks so you can generate timely invoices, take advantage of all applicable discounts, improve cash flow, and more.

Human Resources - AUTOSTORE makes hiring easier by ensuring complete documentation packages, identifying errors and omissions, and streamlining the onboarding process for every new hire.

Records Management - AUTOSTORE automatically captures and securely stores critical company information for easy retrieval, tracking, and compliance with applicable laws and regulations.

These are just a few examples of how AUTOSTORE increases efficiency throughout businesses and organizations.

A Wide Variety of Industry Applications

AUTOSTORE is a smart business automation solution for a range of information-intensive industries, including:

- Healthcare
- Financial services
- Retail
- Legal
- Utilities
- Manufacturing
- Transportation and logistics
- Professional services
- Local and state government
- Non profit

Key Business Benefits

- Streamline business processes (accounting, HR, records management and more)
- Improve productivity (eliminate manual processes, reduce human errors, automate workflows)
- Reduce operating costs (manual storage, faxes, mailing costs, data entry, and more)
- Ensure compliance to applicable laws and regulations (create secure rules-based document processing, audit trail and tracking)
- Increase efficiency and control with centrally managed workflows (instant access to needed information)

And more

Key Product Features

- Capture information and documents from virtually any paper or electronic source
- Capture paper documents from scanners, MFPs, and copiers from leading manufacturers
- Index paper and electronic documents before storage
- Scan one time and deliver to multiple destinations
- Create personal workflows with network authentication
- Convert scanned documents into various formats (searchable PDF, WORD, EXCEL, etc.)

And more

Workflow that Works

Companies and organizations such as Siemens Financial Services, Allegient Systems, Florida Municipal Power Agency, and UNICEF rely on AUTOSTORE to streamline their business processes so they can improve their bottom line.

.....
"For our company, the AutoStore process provides a practical solution for routing scanned documents and working toward a paperless office," says Christen Connell, Operations Process Improvement Assistant at Sperry Marine. "AutoStore has provided us with the product versatility necessary to transition easily to electronic storage and accessibility. The complexity and time, of both storage and retrieval, used in our former process was significantly reduced with the use of AutoStore."
.....

How AUTOSTORE Works

AUTOSTORE performs three key functions that make jobs easier and businesses more profitable.

Capture:

AUTOSTORE captures documents from virtually any paper or electronic source, including MFPs, copiers, desktop applications, emails, faxes, and other sources.

Process:

Using advanced process components such as OCR, barcode recognition, and forms recognition, AUTOSTORE processes documents from a wide range of sources into useable business information.

Route:

AUTOSTORE indexes and routes documents directly into selected business applications and databases with a single mouse click.

Collect content from:

- Xerox
- Ricoh, Lanier, Gestetner, Savin
- Kyocera
- HP
- Sharp
- Kodak
- TWAIN Scanners
- Email (SMTP, Exchange, POP3)
- Fax
- Local or remote folders
- FTP sites (secure and unsecure)
- Files (batch, XML, text, delimited formats, ASCII)
- PC desktop
- Microsoft Office applications

And more

Send content to:

- Fax servers
- eMail
- Folders
- Secure FTP sites
- ODBC-compliant databases
- Printers
- DMS (*Microsoft SharePoint, Documentum Interwoven, IBM CM, FileNet, OpenText,...*)
