**NewWave Technologies, Inc. Relocates Corporate Offices**

GAITHERSBURG, MARYLAND -- Monday, August 6, 2007 -- NewWave Technologies, Inc. is pleased to announce the relocation of its corporate offices to Frederick, Maryland.

After 15 years in Gaithersburg, Maryland, NewWave is relocating to a beautiful, brand-new facility in Frederick, Maryland. This new building boasts contemporary state-of-the-art facilities and a 41% increase in square footage with expanded warehouse capabilities, as well as additional space for the sales, marketing, product, accounting and IT support departments. To encourage a healthier lifestyle among employees, the new building also has an indoor health facility.

The move comes as a result of the company's phenomenal growth over the last several years. This growth has been attributed to the support of NewWave's manufacturer partners, its faithful customer base, a plethora of new customers, and the dedication of NewWave employees.

"We see several benefits with our new location, both for ourselves as well as our vendor partners and customers," said Bill Cordell, President of NewWave Technologies. "The new building and technical infrastructure will help our employees to be more productive, while providing a location accessible to so many services and amenities not available in our Gaithersburg location. With this expansion, we are continuing our commitment to providing superior customer service."

The city of Frederick is known for its rich Civil War history, with memorial battlefields at Antietam and Gettysburg, and is surrounded by the beautiful Catoctin Mountains. Located equidistant from both Washington, DC and Baltimore, Maryland, the new Frederick location is convenient to major transportation routes, resulting in improved delivery of product to customers.
