

## Did You Know?

NewWave Technologies has several models of Böwe Bell and Howell Scanners that are available to you for Product Demonstrations or Product Evaluations. Take advantage of these evaluation scanners to help show how effective a BB&H scanner can be with your customers. Benefits of using a demo scanner include anytime availability to show off the technology without purchasing the unit. To learn more about these Böwe Bell and Howell scanners and their availability, please call your NewWave inside sales representative.

Currently in stock for demo purposes:

0103550P – Truper 3600 Pluses	Qty 3
0103540 – Truper 3200 FB's	Qty 3
0101821-US –Spectrum XF 8140DCI's	Qty 2

Frequently Asked Questions:

### **Is there a cost involved?**

Since these are evaluation units, there is no cost – nothing to purchase. The only cost incurred is for the shipping of the product to the desired location, and then the cost of returning the product to NewWave.

### **How do I reserve one of these scanners?**

Call your NewWave inside sales representative.

### **How long can I keep the unit?**

These demo / evaluation units can be used for 30 days. At that time you must return the product to NewWave.

Your NewWave sales representative can answer any other questions you may have!
