

SEPTEMBER 1 - NOVEMBER 30, 2017 ONLY

Performance-driven i4000 Series and i5000 Series Scanners from Alaris

The Trade-In, Power Up Scanner Event from Alaris is here!

Greater productivity, powerful new features, and big savings!

Trade in your old scanner and power up with a new i4000 or i5000 Series Scanner from Alaris. Boost productivity and save now and in the future. Get big bucks for your old scanner(s), too. See all you can achieve with a new scanner from Alaris.

Greater productivity

- Scan at full-rated speeds, even with image-enhancing features turned on
- Easy integration with your system, apps, and workflows
- Large, easy to use, touchscreen control panel
- Built-in barcode reading delivers accurate data, no matter what output resolution is
- Multiple features to detect and eliminate jams and misfeeds

Powerful new features

- Improved Perfect Page imaging adds streak filtering and more for great images every time
- Total compatibility with latest versions of **Microsoft Windows**
- Exceptional color stability through white LED illumination
- Tri-stream output for simultaneous color, grayscale, and black-and-white
- Feed long and fragile documents with straight-through paper path

Big savings

- Get substantial trade-in value for your old scanner
- Save big on service contracts - some customers have experienced a 66% savings!
- Get a fast ROI through streamlined productivity, new features, and service savings

SEE THE SAVINGS AND NEW SCANNER FEATURES ON BACK
