

RESELLER ONLY

SCANNER SERVICES AND WARRANTY **QUICK REFERENCE GUIDE**

Reseller companies including their employees, representatives, and agents are not permitted to disclose or share the Panasonic Authorized Reseller Program including program details, benefits or information, gained through the Panasonic relationship with another manufacturer or end-user.

Panasonic
AUTHORIZED
RESELLER PROGRAM

SERVICES DEFINITIONS

Panasonic Professional Installation: Panasonic offers on-site installation of any newly purchased scanner. Professional installation includes unboxing, installation of all included cables, and a single software/driver installation with basic user instruction. Professional installation does not include any integration services, advanced user training or advanced software installation support. Upon purchase, Panasonic will contact the customer within 3 business days of service registration from our distributor to schedule a convenient time and date for installation.

Professional Software Installation & Training: Panasonic offers optional WebEx™ based installation and training for any of its software applications. Within 3 business days of contract registration, Panasonic will call to schedule a time and date for installation and, in some cases, to schedule a separate WebEx™ training session. There must be an active internet connection on site and the ability to install an online e-meeting application for the remote session.

Advanced Unit Replacement (AUR): Panasonic's AUR service provides next business day replacement of a faulty unit. In the event a unit requires repair; Panasonic will ship a replacement unit overnight. Replacement units will be of equal or better value to the returned unit. When AUR service is utilized a refurbished or new unit will be provided. Panasonic's AUR service includes all shipping costs and repair/refurbishing of the faulty unit.

Depot Repair Service: Panasonic's Depot Repair service provides you with off site repair of your scanner at our repair facility. Panasonic will provide everything needed for round-trip shipping of the faulty scanner to our repair depot. Depot repair service includes shipping, parts and labor. All repairs will be performed within 5 business days.

On-site Service: Panasonic will dispatch a trained technician to troubleshoot and repair the scanner. Panasonic's on-site services include all parts, labor, and travel. Consumables such as roller kits are not included in our basic on-site service offering. See Pro-Tech Care below for consumables coverage.

Pro-Tech Care Service Program: Panasonic's Pro-Tech offering provides scheduled routine maintenance, advanced break-fix service, consumables, and roller kits. Pro-Tech Care is an on-site service which comes with a variety of response times. Customers can select Next Business Day, Same Business Day or 24/7 coverage. Response times must be pre-selected. Once the contract has been registered with Panasonic, all included consumables will ship directly from Panasonic.

Standard Terms & Conditions:

- Extended warranty upgrades or extensions are not transferable.
- Customers can purchase extended coverage on any scanner within the first 5 years of the original date of purchase.
- Panasonic will allow extended coverage on any unit which is outside of manufacturer warranty provided it is in good working condition. Panasonic reserves the right to refuse coverage of any repair within the first 30 days if the unit was suspected to be non-working prior to contract purchase.
- Extended coverage or warranty upgrades can be purchased at any time.
- Extended or upgraded coverage does not include accidental damage, product misuse, non-OEM consumables or usage beyond the equipment's rated duty cycle.
- Next Business Day service (Pro-Tech Care) cannot be guaranteed after 4PM Eastern Standard Time.
- Extended coverage or upgrades are not refundable. Exceptions may be allowed on a case by case basis.
- Panasonic will only use genuine parts and roller kits where applicable.
- For depot & exchange warranties, the customer is responsible for any damage determined to be the result of improper packing and handling of the unit.
- Units exchanged under warranty or extended coverage will retain the same warranty period as originally purchased.
- Additional terms and conditions may apply. Complete contract terms and conditions can be provided upon request and will be provided at the time of purchase.
- Customer is responsible for scheduling all periodic cleanings / services which are included with their extended warranty coverage including Pro-Tech Care services.
- Panasonic reserves the right to modify this program at any time without prior notice.

NBD: Next Business Day Service (8 business hours), SBD: Same Business Day Service (4 business hours), 3BD: 3 Business Days, 24/7: 24 hours/7 Days a week (4 Hour Response).

Panasonic offers extended coverage of any new or existing scanner for up to 5 years from original date of purchase.

Panasonic will extend coverage on any unit out of warranty as long as it's in good working condition.

Roller kits included in the Pro-Tech Care warranty upgrades will shipped directly to the end user at the beginning of the contract term from Panasonic.

Extended coverage is non-transferable.

*Single unit installation service includes unboxing, installation of all cables, and standard software installation on a single user PC and basic operation training. Panasonic will call to schedule onsite installation within 3 business days of service registration.

Reseller companies including their employees, representatives, and agents are not permitted to disclose or share the Panasonic Authorized Reseller Program including program details, benefits or information, gained through the Panasonic relationship with another manufacturer or end-user.
