Epson Offers Microsoft's OneNote App in its Scan-to-Cloud Service Portfolio

Epson WorkForce DS-560, WorkForce DS-510 and WorkForce DS-30 now support new OneNote platform updates including scan-to-email, pictures and web apps

LONG BEACH, Calif. – March 17, 2014 – Epson America, a leading provider of exceptional performing business imaging solutions, today announced that OneNote, a digital note taking application designed to keep users organized, will be compatible with its document scanners. Epson[®] WorkForce[®] DS-560, DS-510 and DS-30 customers will now be able to scan to OneNote, in addition to several other scan-to-cloud services, via Document Capture Pro for more productive document organization and increased access.

“By adding OneNote to the range of cloud services available through Document Capture Pro, Epson demonstrates its commitment to offering solutions that meet a wide range of customer needs,” said Heather Johnston, product manager, Document Scanners, for Epson America. “The new version of OneNote is designed for organization and ease-of-connectivity, which will be an added benefit to WorkForce customers looking to streamline business and increase productivity.”

OneNote is an all-encompassing digital note taking solution that enables users to capture and manage notes in a variety of mediums in one convenient place. OneNote allows users to access their documents, images and more via their web browser with the OneNote App, available in the Mac App Store, iTunes Store, Google Play and in the Windows Store. Also included with OneNote is offline access to notes for users that do not have readily available Internet access as well as easy integration with the Microsoft Office suite of products. Users can also easily share their files with others, including the ability to simultaneously co-author documents, for increased collaboration.

Epson WorkForce document scanners offer a range of features to increase productivity and efficiency in the workplace, including blazingly fast scan speeds, reliable performance with text quality enhancement capabilities and versatile paper handling.
