

Fujitsu's factory-authorized ScanAid kits come with all of the necessary consumable parts and cleaning supplies to protect your Fujitsu scanner and minimize your downtime. In the event of necessary servicing, ScanAid kits ensure critical parts are already on-site, ready for use anytime you need them. Each ScanAid kit is designed to meet the maintenance requirements of its specific scanner model. The ScanAid kit's cleaning and consumable replacement guide provides easy to follow instructions for cleaning and parts replacement.

Complete ScanAid kit descriptions and part numbers are listed in the chart below. To place an order for a ScanAid kit, see the back of this form.
