

## Access Announces Partnership with NewWave Technologies to Distribute Enterprise eForms Software

New relationship delivers the time- and cost-savings of paperless forms and electronic signatures to a broad customer base in a wide range of industries.

Sulphur Springs, Texas (PRWEB) January 23, 2017 -- Access today announced that it has finalized a distribution agreement with NewWave Technologies, a leading distributor of document and data management solutions. Under the terms of the arrangement, NewWave will recruit exceptional partners to sell Access Passport for Enterprise and Access Formatta products to all industry segments.

"We're excited about our new partnership with NewWave and look forward to creating success through their extensive channel structure and reseller partners," said Access President Mark Johnston. "We appreciate the enthusiasm that the NewWave team has shown in expanding their offerings with our eForms and eSignature solutions, which will benefit hundreds of customers."

Access Passport for Enterprise and Access Formatta offer a complete, web-based forms management software platform that transforms any process using paper forms into an electronic, paperless one—empowering users to:

- Design and create electronic versions of paper forms
- Publish and manage the forms securely
- Access and organize all enterprise forms in one place
- Complete forms online or offline and submit them anytime
- Authenticate and sign forms officially without paper
- Distribute forms and notify others as part of any process
- Output forms and share data with other systems

Founded in 1992, NewWave supports its value added reseller channel with business process automation technologies that capture, store, manage and distribute business-critical information. NewWave's extensive portfolio of products, expertise in the market and deep commitment to their channel has been the foundation of their ongoing success.

"Teaming with Access is part of our continued strategy to broaden our solution offerings to our VAR Partner Channel," said NewWave Technologies President Bill Cordell. "Access's web-based forms management software platform, depth of experience in the market, comprehensive VAR programs and support provide our partners with the ability to address new, untapped areas of revenue as they look to expand their businesses."

NewWave is one of the important additions that Access has made to its strategic partner network recently. Some of the reasons companies choose to partner with Access include the ability to:

- Take advantage of the most flexible, secure and interoperable eForms software on the market.
- Boost profit margins with quick, cost-effective deployments that demonstrate real value and quick ROI.
- Provide a fast project win that impresses clients and saves room for other services.
- Benefit from dedicated sales and support from experienced Access specialists.
- Leverage joint marketing materials and opportunities, such as trade shows and webinars.
