The SP-1130N is a compact and network compatible scanner that provides high-value performance, perfect for entry-level for personal and small businesses. It scans 30 ppm / 60 ipm and holds 50 sheets in the ADF, making it a great option for batch scanning.

**Flexible and easy operation to improve daily workflow**
High-speed USB 3.2 Gen 1x1 and wired network connection expands the versatility of user operation so that users are no longer confined to operating near the computer. Operation is now possible in a wider variety of locations, with reliable network environment support. SP-1130N is also compact in size, making it the perfect scanner to use on a desk or reception space where space is limited. This entry level model allows for a simple, push-scan from the front panel, for intuitive use. All these features combined, enable anyone to operate the scanner anywhere.

**Software for ultimate business efficiency**
Compatible with all major scan softwares, the PaperStream IP TWAIN and ISIS drivers clean up even the most difficult documents. The software automatically converts scanned images into exceptionally clean images, raising OCR accuracy, even when scanning wrinkled and soiled documents, or documents with background patterns. With PaperStream Capture software, users can capture batches of all sizes, tag meta data and enable automated naming and filing of documents, creating the utmost efficiency.

**Assistance for safe and reliable scanning**
SP-1130N comes with brake rollers to deliver accurate page separation and prevent any multi-feeding errors from occurring. This mechanism, along with our ultrasonic multi-feed sensors, provides users with stable paper feeding, prevents any potential information loss from occurring, and enables scanning of all documents and cards at the office with maximized precision and efficiency. Application forms and ID cards at the reception desk, for instance, can be scanned in just one batch, allowing for quick processing and reduced customer wait times.

**Document software for maximized flexibility**
Easily find the information you need using ABBYY FineReader Sprint. Specializing in OCR processing, the software is compatible with over 190 languages and generates both searchable PDF and Microsoft Office documents.
